Global stock market analysis from 2003 to 2008 in US dollars and Euros: Update on the collapse of the United States

PEJ News - [chycho](#) - A few years ago I had the opportunity to do research into certain [cons piracy theories](#)

, once I came to terms with what I was finding, I began to look at the [consequences of what was happening](#)

.

The first place I looked was the [financial markets](#) . After doing some number-crunching the [trials and tribulations](#) [ends became clear](#)

. That

One of my friends who took the advice to heart, and liquidated almost all assets from the United States, contacted me a couple of days ago and asked where the best place would be to invest some money - a safe haven to park some assets. So I
