### Coal to Liquids

**PEJ News** - This is an excerpt from an interesting internet forum. Check the link [Coal-to-Liquids](#) to read the article.

"It is not just environmental groups who are objecting to proliferation of coal-to-liquids technology. I am an energy engineer with 38+ years of experience. Coal-to-liquids is a red herring; a straw dog; a total waste of time, energy, money and talent; a boondoogle. A solution that solves the wrong problem."
